These plans and specifications are property of and copyrighted to AMUSEMENT LOGIC LLC. and they may not be used in any project, except with prior written consent from AMUSEMENT LOGIC LLC.

Aquafamily is a line of figurative games that aim to develop children's **imagination**, creating an environment that could be the setting for an invented story, whose protagonists are the children themselves or any imaginary character they have made up.

It consists of fun collections of **animals grouped according to their habitat**. Thus, the animals chosen for this are those which are more familiar to a younger audience, like the farm, forest and sea.

In order to create complete scenes and adapt them to different ages of play, different sizes and positions have been designed according to each animal.
