# ABOUT US

A Technical and Creative Multidisciplinary Team

AMUSEMENT LOGIC WORLDWIDE LLC, which builds upon 25 years of experience out of our offices in Valencia (Spain), is an indisputable worldwide reference in the leisure design and architecture sector, because of its ability to provide comprehensive development of its projects.

Amusement Logic Worldwide LLC is a company specialised in providing **comprehensive design, architectural and engineering services** for all types of leisure and touristic projects: waterparks, theme parks, animal parks, themed pools, campsites, residential complexes, hotels and resorts, extreme and adventure parks, FECs, amongst many others.

We work on a worldwide scale and our services comprise **all the development phases of a project**: market and economic feasibility studies, concept design, architectural and engineering project in all disciplines, as well as supervision, start-up and project management services.

We also **manufacture, build and supply** a wide spectrum of **leisure-related products**: slides, children's attractions and games, interactive games, metallic structures and exit towers, theming, pool and plantroom construction, hydraulic systems, (water movement, pumping, filtration and chemical treatment).

# INTERPRETATION GUIDE

## TECHNICAL SPECIFICATIONS

-  **Dimensions:** length x width x height.
-  **Minimum space:** floor area of apparatus with the required size of the impact area.
-  **Age:** recommended user age for the play element.
-  **Maximum capacity:** recommended number of users at one time using the play element.
-  **Free fall height:** to determine type of flooring in impact area.

Height= 1,30 m  
Age 9 years

Height= 1 m  
Age 4 years

Our play elements have been designed in compliance to the Standard UNE-EN 1176-1. The correct use of the play area is the responsibility of the children's parents or adult guardians. \* Children under 36 months should be supervised by an adult.

The photographic details of the products may not coincide with the included descriptions. All information can be subject to technical changes, or printing errors. These plans and specifications are property of and copyrighted to AMUSEMENT LOGIC LLC and they may not be used in any project, except with prior written consent from AMUSEMENT LOGIC LLC.

PlayLogic consists of a line of **play structures** that go **beyond traditional children's playgrounds**. Moving away from typical elements such as swings, slides, castles and seesaws, we have created two distinct collections that put users' skills to the test, encouraging self-improvement.

**Hexagon:** a vaulted, modular and polyhedral structure that offers the possibility of hanging different interactive structures. By exploring the possibilities, children will create their own types of games at height.

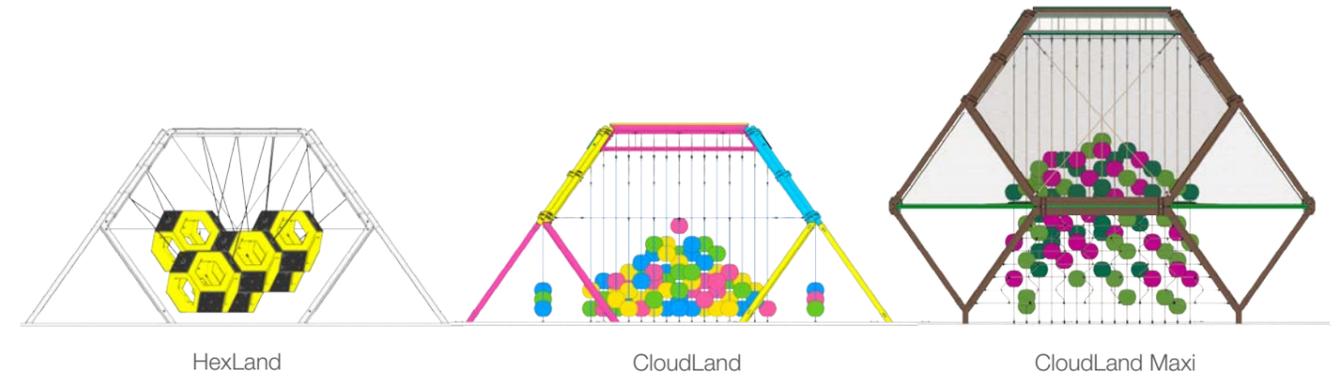

**Geo:** based on ground-located play elements that children can run around, climb, slide down or jump over, overcoming challenges according to their skill and courage.

**Fun Clan:** figurative games that try to enhance the children's imagination, creating an environment capable of being the scene of a made up story, whose protagonists may be the children themselves or any character from their imagination. In order to create complete scenes, adapted to different age groups, different sizes have been designed.

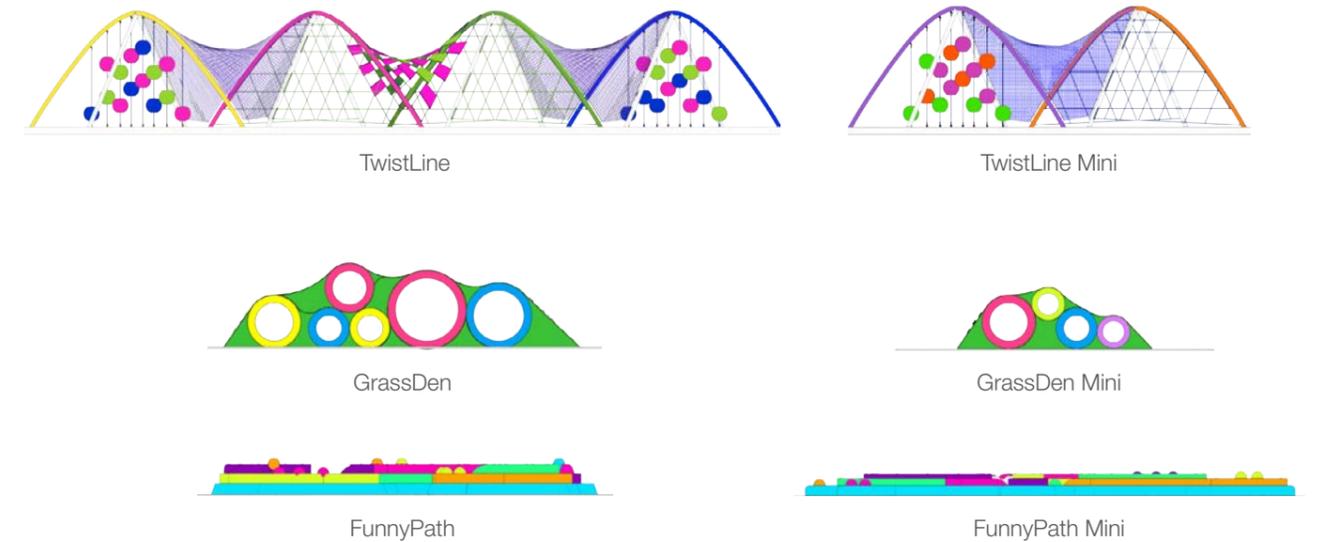

# INDEX

## Hexagon

## Geo

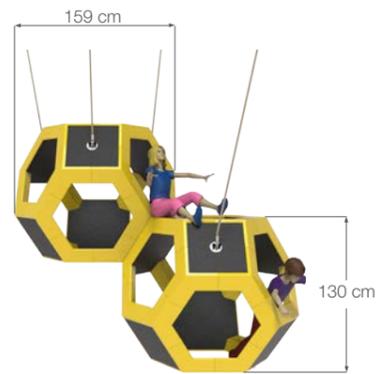

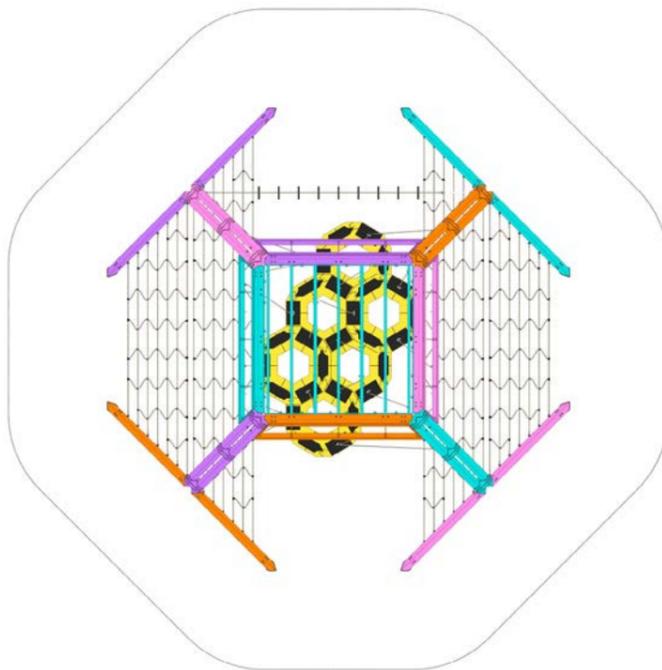

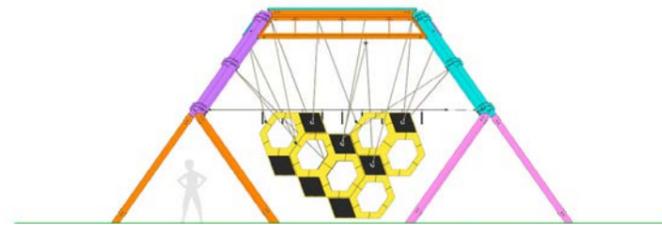

## Fun Clan

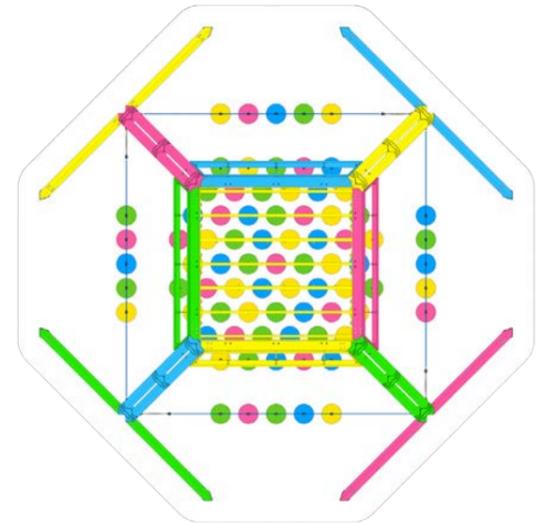

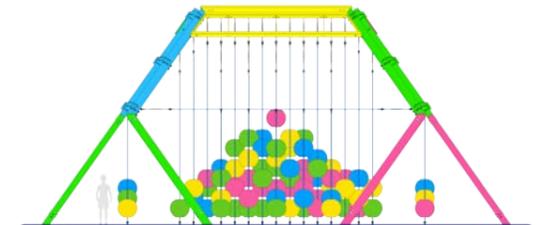

HexLand	
	9,3 x 9,3 x 4,4 m
	13,4 x 13,4 m
	+ 5 years
